Commissioner Jane Henney  
FDA Dockets Management Branch (HFA-305)  
Docket No. 00P-1211/CP1  
5630 Fishers Lane, Room 1061  
Rockville, MD 20852

Dear Commissioner Henney,

This is a request for the FDA to label all genetically engineered foods, as well as to test them for safety issues. I do not support GE foods, although I recognize that they are profitable for some. However, without effective testing and labeling, public safety may be imperiled.

GE foods pose dietary risks for consumers. At the least, they should be labeled in order to provide adequate choices to consumers. But GE foods should not be marketed without effective testing to determine long term health insurance. Testing should include such issues as environmental impacts as well as health risks to consumers.

Thank you.

Very truly yours,

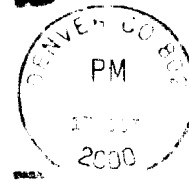

Robin Wright
